Hi Colin Thanks for your email it has prompted me into getting the info done for Pensthorpe for you to insert in the info box.

Pensthorpe Nature Reserve and Wetland Gardens

Large area of 700 acres of wetlands and gardens. An opportunity to see plenty of wildlife and a booked tour of the Millennium gardens which are at there best this time of a the year. These gardens have been designed by Piet Oudolf a world renowned garden designer.

There will be an orgained parking space for our cars which will enable us to have chairs and picnics, weather permitting for those that wish to do so. There is a newly extended cafe where you could have a light lunch if wanted. If you wish to have a cream tea there is an additional cost per person of £18.50.

You will be notified regarding the Entrance fee once I have the total numbers if I can get a group of 24 people the cost will be approx £15.00 per head which includes entrance fee and garden tour.

So hopefully we will have a good group and good weather.

I will keep you updated regarding numbers,there are 13 of us so far, but it is early days yet

Please get intouch with me by email if you have any concerns.

Thanks Sandra and Margaret

Hope you can make something of this Colin and thank you once again for prompting me. Had a number of things going on S xx
